

Investment in PayNet

Welcome To PayNet

Introduction:

In PayNet we have deployed a smart contract according to rules to apply Tron protocol with best manner and beneficiary process for all investors around the world without any risk.

About Smart Contract:

Smart contracts are simply programs stored on a blockchain that all agreements never could be changed by anyone and run when predetermined conditions are met. Here in PayNet we automate the execution of an agreement so that all participants can be immediately certain of their investment through our platform which secures the whole process, without any intermediary's involvement or time loss.

PayNet Security Check up:

PayNet has applied a verified smart contract that anyone can see it on blockchain and investors can confidentially save their Tron in this platform and get a passive income with highly rated ratio of investment, PayNet smart contract is a special type of instructions stored on the blockchain. It also can self-execute actions according to a series of parameters already programmed. All this in an immutable, transparent and completely secured way.

Investment level of knowledge:

Here anyone with any level of education can easily understand and enters to this endless world of saving Tron and makes money in a secure and safe place without any more educational background all you need is have a reliable wallet (<https://www.tronlink.org/>) and enough Tron as much as you desire to invest from 1000 TRX to an unlimited amount of TRX.

What makes PayNet Unique?

Maximum Profit (10%):

- Maximum Profit amount in compare with other projects

Best Referral Ratio after making first deposit

- 10% from first referral investment

Highly Daily ROI with most accumulated (PHR)

- %210 Total Return from profit holding reward

High Security

- Secure Sockets Layer(SSL)
- Cloudflare and Anti DDos

PayNet Daily ROI :

An investor can withdraw his profit anytime when he wants but if he holds his profit for 10 days, he will receive 1.0% extra as Profit Holding Reward. It means from 11th day, he will receive 20% Daily ROI on his investment. (10% Basic Daily ROI + 10% Profit Holding Reward). If the investor further holds his profit for next 10 days, for example from 11th day to 20th day, he will receive 10% again as 10 days profit holding reward. Now his Daily ROI from 21st day will be 30% on his investment. (Daily Basic Profit 10% + 1st 10 Days Profit Holding Reward 10% + 2nd 10 Days Profit Holding Reward 10%). The profit holding reward will keep growing with +10 after every 10 days if the investor does not make withdrawal. Once the investor makes withdrawal, he will get all the earnings but his previous accumulated percentage of Profit Holding Reward will be reset. In this case, he will get just Daily Basic Profit rate of 10%. For every 10 days, there is 10% profit holding reward which will be reset back to daily basic profit rate on every withdrawal.

Marketing Plan :(Referral Percent)

There is referral income in PayNet referral program that is transferred to investor account and can be withdrawn immediately after the referrer uses the link and invest according to their levels of referral.

*Referral commissions are not included in total income cap of 210% which applies only to investment. So you can enjoy unlimited referral earnings depending on your marketing efforts.

How PayNet Makes Profit :

Our intelligent and powerful system of trading uses the high-empowered trader bot that uses algorithm and technical analysis in an enhanced way that increases the portion of benefit according to trends and market behavior that makes secure investors and company for investing as well as growing the liquidity for both sides that enables a mutual path to great and beneficiary future with confidence. Our goal is to meet and surpass investors' financial aims without limiting their investments. We have positively accomplished this in crypto world.

Benefit of Holding and long term investment:

Another benefit in PayNet is after for each 1M TRX in contract 0.1% will be added to daily profit , for example 2M TRX equals 0.2% or 3M TRX equals 0.3% increase in Daily profit, that makes again to think how our smart contract experts value the investors and make the route to future more and more profitable
